Welcome to *M*agical *o*ments Photography!

Hello! I'm Steve Cumberbatch and I count it a privilege each time I am invited through my lens into someone's unique story.

The powerful medium of photography has given me the passion for capturing the most important memories - family memories - revealing personalities, not just people, and moments that reflect the irreplaceable relationships you share.

My photographs will remind you of how you looked, what you did . . . and how you felt - and that is where the magic is!

It will always be your story, and I'd be delighted to tell it!

How long should my coverage be?

1.5 hours: The most basic packages which allow for coverage of the wedding ceremony and limited coverage afterwards of fun romantic memories with just you, or with friends and family as necessary.

2 hours: As above, but with a bit more flexibility, this package may take you closer to sunset coverage for afternoon weddings.

3 and 4 hours: As above but may include more of the bridal preparation and anticipation, and limited coverage of the reception as necessary.

8+ hours: The full 8 hr package, and time in excess includes all the above and full coverage of the reception as necessary.

Our Process, Rates & Packages

After the celebration we edit and retouch your images, which can take between 4 days and five weeks depending on your package. They are then uploaded to a personalized website for viewing and selection. This service is available to you on a complimentary basis for 3 months. Once you have completed your selection and balances are paid, files can be delivered to you over the internet within 2 days. Standard albums can be completed within 2-5 days, while Coffee Books take a further 7-10 days to complete design/layout, and another 2 - 4 weeks for production of the Books.

In the unlikely event that I was unable to shoot your wedding, the deposit would be completely refunded, and I would obviously suggest a suitable replacement.
